Experienced Systems Integration Engineer with 5+ years in integrating and deploying mission-critical ATC solutions, now serving as Electronic Invoicing Project Lead at the accounting firm GEXPERCO delivering e-invoicing for the firm and its clients.

Professional Experience

Electronic Invoicing Project Lead
GEXPERCO, Guadeloupe (France) – Oct 2025 to Present

- Accounting data entry and account review using Sage Generation Experts.
- Statutory audit for Small and Medium sized Enterprises and Associations. Analyzed balance sheets, income statements, and cash flow statements, assessing accuracy and compliance of financial records.
- Implementation of Electronic invoicing (French reform) for the firm and its clients.

System Integration Engineer
Thales, Rungis (France) – October 2021 to December 2022
Thales, Melbourne (Australie) – January 2023 to March 2025

- Integration and deployment of the **TopSky-ATC** air traffic control system within the Australian airspace modernisation project (**OneSky**).
- Remote and on-site deployment of **TopSky-ATC**. Conducted **Site Acceptance Testing (SAT)** in Dubai, in coordination with international teams.

Integration and Validation Engineer
CS Group, Paris Suburbs (France)
September 2019 – October 2021

- Contributed to the **SYSAT project**, focused on modernizing air traffic systems for **CDG and Orly airports** (in collaboration with Saab).
- Designed and executed **Factory Acceptance Testing (FAT)** and **Site Acceptance Testing (SAT)** campaigns using Testlink.

Education
